1 Introduction

This document describes the changes made in the last version of the Certification Policy & Practice Statement (CPS) of StartCom.

This document is issued according to the CPS approval procedure established established in the paragraph 1.5.4 of the Certification Policy & Practice Statement (CPS) of StartCom.

2. Changes

Those are the main changes made in the version 3.2.0 of the Certification Policy & Practice Statement (CPS) of StartCom, issued on the 14th of July, 2017, from the previous version.

Section	Change
2. Publication and repository responsibilities	Reorganized the whole section to discern between new sections, 2.1 repositories and 2.2 publication of information
2.3 Time or frequency of publication	New section clarifying the requirements
3.2 Initial identity validation	Reorganized the whole section to show a clear view. Ip address validations removed. Differentiate clearly the validation of the organization and the individual.
3.2.5 Validation of authority	New section clarifying the requirements
4.9.1 Circumstances for revocation	Reorganized the section to distinguish the revocation of a subscriber certificate and a CA certificate adding more circumstances.
4.9.4 Revocation request grace period	New section clarifying the requirements
4.9.5 Time within which CA must process the revocation request	New section clarifying the requirements
4.9.6 Revocation checking requirements for relying parties	New section clarifying the requirements
4.9.7 CRL issuance frequency	New section organizing all statements for CRL issuance within the document
4.9.8 Maximum latency for CRLs	New section organizing all statements for CRL issuance within the document
4.9.9 On-line revocation/status checking availability	New section organizing all statements for OCSP within the document

4.9.11 Other forms of revocation advertisements available	New section with no content.
5.4.3 Retention period for audit logs	New section clarifying the requirements
6.1.4 Key sizes	New section clarifying the requirements
6.1.5 Public key parameters generation and quality checking	New section clarifying the requirements
8.7 Self-audits	New section clarifying the requirements
